ABSTRACT

This bibliography contains references for materials related to birth planning decisions. It includes items concerned solely with the decision of whether or not to become a parent, as well as books and articles on careers and parenthood, family size, health and pregnancy, and the cost of having and raising children. The bibliography contains 42 references for books and 44 references for articles. Although the citations are not annotated, each reference is coded with a (P) if it is intended primarily for a professional audience or with a (G) if it is intended for a general audience. (Author/NB)
